Be a part of something big.

When we think of all that needs to be done, that must be done—to provide each and every person on the planet with a safe, nutritious, and sustainable food supply—we think as one. Because the power of many acting as one is game changing. **Let's change the game—together.**

Attend IFT17. Network. Learn. Innovate. Exhibit. Advocate.

Get the insights you need to succeed.

In today's competitive workplace, you can't afford to let a professional development opportunity like IFT17 pass you by. Hone your expertise by exposing yourself to the latest research. Recharge your creativity with inspirational presentations, real-world case studies, peer exchanges and access to leading solution providers.

IFTNEXT—where innovators come to play.

Critical Conversations and Hot Topics

Powerful, interactive talks exploring provocative topics in food science and its related fields.

Start-up Alley

Talk one-on-one with a leading group of entrepreneurs developing some of the most innovative products and solutions.

Debates and Roundtables

Watch or participate in thought-provoking debates and roundtable discussions tackling important and sometimes controversial topics.

Be challenged to think big and be bold.

In addition to more than 100 scientific sessions, IFT17 will have real-world, problem solving sessions to impact your business and life. Here is just a sample of what you will experience.

Conversation with Andrew Pelling

Dr. Pelling, scientist, professor, entrepreneur and TED Senior Fellow will provide a talk to unapologetically challenge your curiosity and creativity.

Design Thinking for Food

Join us for a flash demo of the design thinking method for innovative product development. We'll go from problem statement to solution prototype in less than an hour.

GMOs...So What?

An interactive, audience participation event in which participants discuss how the GMO controversy has impacted them and what it means for the future.

Consumer Behavior Survey

What people want and what they do are often at odds. Get a peek into consumer behavior to gain real market intelligence that you can take back to your business.

Who attends?

Attendee's role within their organizations:

Attendees by Industry (%):

Here's what they say...

Caroline Campbell

"I come back to the IFT Annual Meeting every year to see the wonderful scientific sessions, how the science of food is moving forward, and then to go to the Expo floor to see how we're applying that science into the food industry and real world applications."

Jennifer Fideler

"I look forward to the Annual Meeting every year because I get to learn new technologies on the Expo floor and network with suppliers that I speak with on a regular basis in my job. I also get to learn from scientific sessions as well as some of the new technologies that are going to help me in my research."

Hongda Chen

"IFT is a wonderful community with a rich collection of visionary scholars and experienced leaders. It's just tremendously rewarding to be listening to their thoughts through the featured sessions."
